

## Almost Human

### Our Human Truck

I was back in the year of '71

I bought a new truck, a Ford by gum

A Four wheel drive that stood tall and black 25

Was quite and shy but with a real strong back

Oh the day of delivery we were in such a flutter

It was the very same day of our first baby daughter<sup>3</sup>

With my wife in the Hosp and me doing chores  
The snow was a falling all over our doors

The driveway were all <sup>plugged</sup> a lot of roads too 29  
But the snow kept a coming and 'oh' how it flew

Now after a while and a bit of good luck  
we finally got out to get our new truck 30

~~It~~ <sup>turn over</sup> wore out two hoses and a whole lot of tires

And I really don't think it will ever retire

So we've ~~drive~~ drove the old truck

Since that wonderful year 30

We've got five ~~more~~ daughters and shed many a tear

There's been a few times when we've parked the old Ford 2  
But it keeps coming back thank the dear ~~to~~ Lord

If it ever gives up to be driven no more

It'll always live on in our minds as before 28

As better truck there'll never be

Cause all six girls think it's part family. 14

~~St. Richard~~

It's hauled people and horses and cows and hogs  
Some wood, some potatoes some cats, and some dogs.

Now we're used and abused, misused and mistreated  
But it's still going strong and it can't be beaten

In the neighborhood here where we've lived for so long  
The people who know it think it's sweet as a song
